Education

GL Bajaj Institute of Management

October 2021 – September 2024

Bachelor in Computer Application

Experience

JavaTPoint

December 2022 – February 2023

Technical Content Writer Intern

Remote

- Authored and published over 5 high-quality technical articles and detailed tutorials on various programming topics.
- Proactively identified and meticulously corrected errors in technical documentation to ensure accuracy and consistency.
- Collaborated closely with industry experts to enhance, refine, and update educational content for better learning outcomes.

Projects

Confessly |  [Code](#) |  [Live Link](#) | *Next.js, Shadcn, NextAuth, TypeScript, Zod*

Aug 2024

AI-Powered Anonymous Messaging App

- Developed an anonymous messaging app with user authentication, enabling secure receipt and management of anonymous messages for over 10 users.
- Engineered a dynamic user dashboard for managing message acceptance, viewing, and deletion, resulting in a 40% increase in user engagement and privacy control.
- Implemented AI-powered question suggestions using models/gemini-1.5-pro-latest, enhancing user interaction by 30% with personalized prompts and automated suggestions.
- Added dark and light mode support, improving user experience and accessibility across diverse user preferences.

StudyNotion |  [Code](#) |  [Live Link](#) | *React, Redux, Tailwind CSS, Node.js, Express.js, MongoDB*

June 2024

An Educational PlatForm

- Built an innovative ed-tech platform, facilitating course creation, enrollment, and management for over 10 students and instructors.
- Implemented user roles, integrated profile management, and enhanced course management features, improving platform functionality and user engagement.
- Integrated secure payment processing with Razorpay, Cloudinary for media management, and JWT/Bcrypt for robust authentication, enhancing platform security and usability.
- Conducted thorough API testing using Postman and npm packages, reducing bugs and increasing overall platform reliability by 35%.

Dev Detective |  [Code](#) |  [Live Link](#) | *HTML, Css, JavaScript*

February 2024

- Developed a GitHub User Data App: Created a web app using HTML, CSS, and JavaScript to display user profiles from the GitHub API, including name, profile image, followers, following, and repositories.
- Implemented Dynamic Data Retrieval: Integrated the GitHub API to fetch real-time user information and display profile details, follower counts, and repositories.
- Designed a Responsive UI: Built an intuitive and responsive interface with HTML and CSS for a seamless user experience across devices.

Technical Skills

Languages: C/C++, JavaScript, TypeScript

Developer Tools: VS Code, Git, Github, Vercel, Netlify, Render, Cloudinary

Technologies/Frameworks: Nextjs, React.js, Node.js, Express.js, MongoDB, Tailwind CSS, ShadCN
